

**Engineering Excellence is partnering with DigiMEP to provide the first mobile software with cloud-based HVAC diagnostics and analytics, and the ability to validate the accuracy of HVAC repairs in real time.**

Engineering Excellence, the leader in National HVAC service and maintenance, announced its partnership with DigiMEP cutting edge scientific technology designed to standardize the mechanical service process.

"We are excited to announce Engineering Excellence's partnership with DigiMEP. The DigiMEP tool will enhance our ability to serve our clients with predictive, data-driven diagnostics, instant quotes, real-time asset management, and high-quality audits" said Engineering Excellence General Manager Bob Flynn.

"Effectively managing and servicing HVAC assets for individual and multi-site facilities can be inconsistent and time-consuming," said DigiMEP Product Marketing Manager Keith Jackson. "HVAC asset and performance data gathered on-site are limited. DigiMEP is the solution."
